

September 29, 2020

Dear Bellaire at Stone Port Friends, Families and Team.

Bellaire at Stone Port has been in constant communication with the Virginia Department of Health (VDH) and has been notified that our Point Prevalence Survey (PPS) has been scheduled for October 1, 2020 from 10:30 am to 1:30 am for all residents and team. A Point Prevalence Survey (PPS) captures information at a single point in time. Residents who potentially test negative on the day of the survey could be incubating COVID-19 and later test positive. In a rapidly involving situation, as we see with COVID-19, those who test positive/negative for the virus can change day by day.

Based on the results of the testing, we will follow the guidance provided by the VDH.

We will continue to follow the processes already in place, including wearing masks, screening residents and team members daily, restricting visitors and practicing social distancing. We feel keeping these essential measures in place will continue to keep our residents safe.

We are thankful for the continued support of our families and community during this time.

If you have any questions, we are here for you. Please call us at 540-469-0730.

Kind Regards,

Beth Wells

Executive Director, L.P.N.
