

November 13, 2020

Dear Stone Port Families, Friends and Team.

First, I want to thank everyone for the love, support and sense of partnership that so many of you have extended to us as we continue to navigate through these challenging waters.

This letter is to alert you that we were notified that one of our residents has tested positive for COVID-19.

We have been in contact with the local health department and they have recommended not to move forward with any additional testing at this time. More so, to control and monitor the current situation.

Moving forward, we have to keep our current restrictions and processes in place, including wearing masks at all times, screening residents and team members every shift, restricting visitors, and practicing social distancing. We feel that keeping these essential measures in place will continue to keep our residents and team safe.

Please know that we will always continue to put our residents first. We appreciate the ongoing support shown by families and residents to our team, who work so hard to keep our residents safe. Please know we are always here for you to answer any questions you might have, please call us directly at 540-246-0888.

We are in this together!

Sincerely,

Beth Wells, LPN
