

December 29, 2020

Dear Family Members, Loved Ones, and Team Members,

This letter is to inform you that, today, Bellaire at Stone Port completed this week's antigen testing for our team members and Assisted Living residents, excluding Memory Care.

Results from this round of testing indicate that there was one new positive case, a team member. There were no new positive cases in our resident population. Our current number of cases is one. We have reached out to the Virginia Department of Health to determine the next steps and are awaiting guidance regarding further testing protocol. We will send further communication as soon as this information becomes available.

We are very sad to report that while we cannot confirm the specific cause of death due to other active medical conditions, one of our residents who previously tested positive has passed away.

Thank you for your continued support during this time. Please do not hesitate to reach out with any questions you may have.

With warm regards,

Cristen Hackenbracht
Executive Director
