

January 21, 2021

Greetings Family Members, Loved Ones and Team Members,

This letter is to inform you that the Virginia Department of Health (VDH) has provided new testing guidelines as a result of our community having zero current positive COVID-19 cases. Their recommendation is that we continue to test team members weekly and that we only test residents if symptomatic. The next round of testing for team members will be Monday, January 25.

If you would like to schedule a visit with your loved one(s) please contact our Concierge at 540-246-0888. Visits are being scheduled 24 hours in advance. Please also keep in mind we will be happy to continue to assist families to connect with loved ones via telephone, email, virtual meetings, Facebook and Facetime.

Thank you for your continued love and support. I will keep you informed of any changes to our current testing protocol.

With warm regards,

Cristen Hackenbracht
Executive Director
